OUR COMMITMENT TO LOCAL CONTENT

The Mozambique LNG project, currently under force majeure, started with the discovery of a vast quantity of natural gas off the coast of northern Mozambique in 2010, leading to a Final Investment Decision (FID) of 20 billion USD in 2019. Operated by TotalEnergies, the Mozambique LNG project is the country's first onshore liquefied natural gas (LNG) development.

Mozambique LNG is committed to maximising local content with the primary goal of contributing to the sustainable development of the country and the well-being of Mozambicans.

Through a comprehensive Local Content Strategy, we aim to enhance and develop local resources across the entire project supply chain, from the construction to operations phase.

FROM THE CONSTRUCTION TO OPERATIONS PHASE

7 000
jobs for Mozambicans created at the peak of the construction phase

400 MMSCFD
of natural gas for the domestic market, boosting industry, agriculture, and public services

1 700
jobs for Mozambicans expected during the operations phase

4.5
billion USD awarded to Mozambican companies

2 500
young people to be trained by 2027

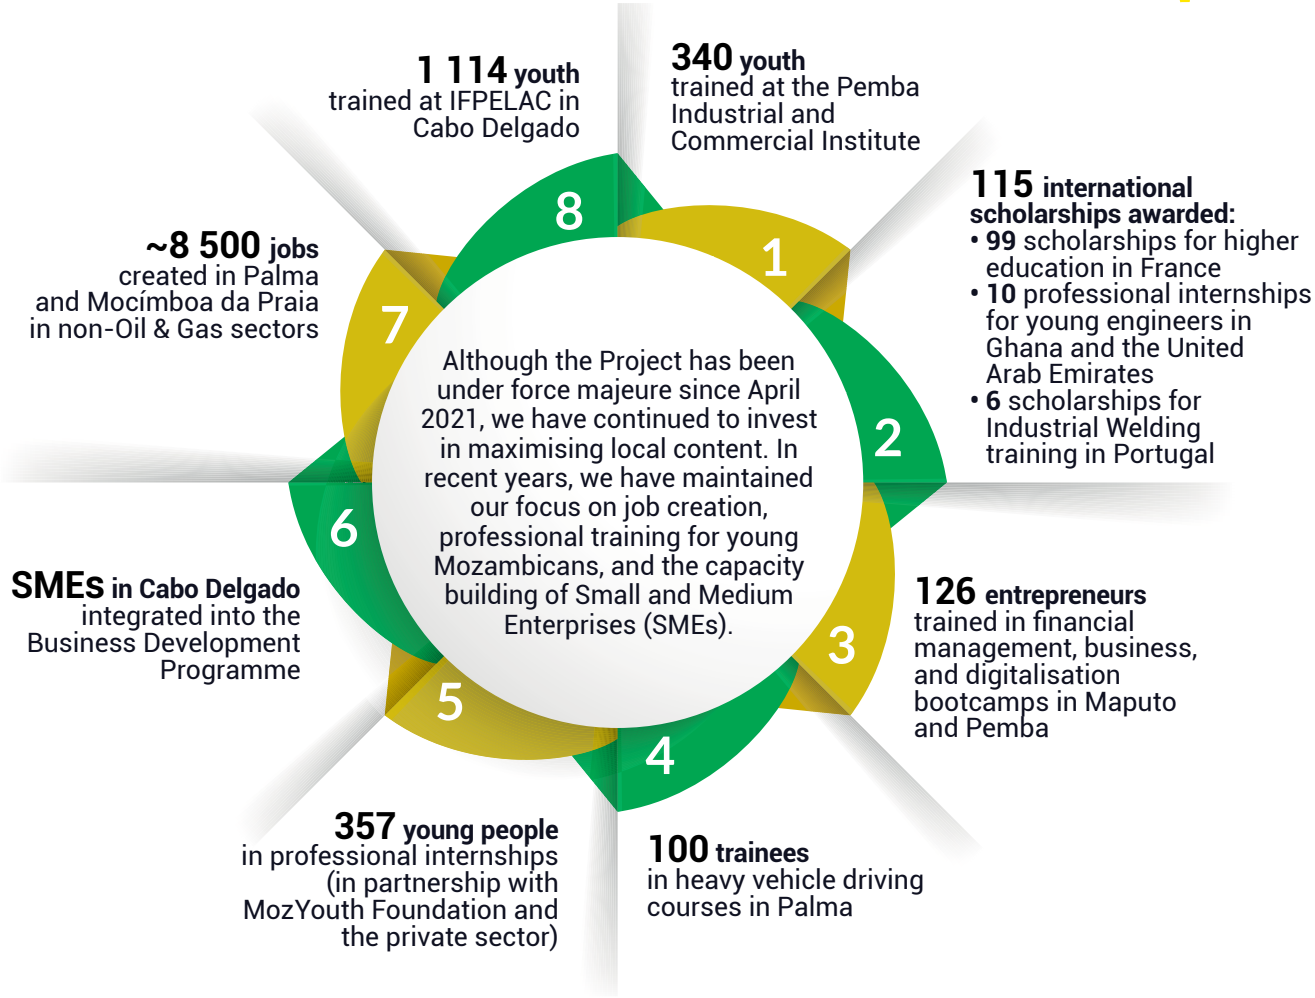

RESULTS TO DATE

THE 3 PILLARS OF OUR LOCAL CONTENT STRATEGY

1 EMPLOYMENT AND PROFESSIONAL TRAINING

Promotion of recruitment and training of Mozambican labour, with a focus on technical skills, in partnership with technical institutes and universities

2 SUPPLY OF LOCAL GOODS AND SERVICES

Encouragement of the hiring of national suppliers and promotion of partnerships with foreign companies, along with the establishment and registration of high-tech international companies in the country

3 CAPACITY BUILDING AND TECHNOLOGY TRANSFER

Promotion of the growth of SMEs and public institutions through the CapacitaMoz platform, aimed at implementing concrete results-oriented capacity-building initiatives
